Estimating spatial firm productivity spillovers using UK microdata

Aloysius Lip

Dissertation Supervisor: Lars Nesheim

Dissertation submitted in part-fulfilment of the MSc in Economics,
University College London
September 2026

Declaration

I, Aloysius Lip, hereby declare that the work presented in this dissertation is my own original work. Where information has been derived from other sources, I confirm that this has been clearly and fully identified and acknowledged. No part of this dissertation contains material previously submitted to the examiners of this or any other university, or any material previously submitted for any other assessment.

I declare the use of GenAI tools in an assistative role (UCL Category 2) for this submission. I used Gemini 3.10 Pro (Google DeepMind, February 2026. <https://storage.googleapis.com/deepmind-media/Model-Cards/Gemini-3-1-Pro-Model-Card.pdf>). This is limited to the roles of: supporting the particular process of reviewing and refactoring code (data analysis), as a support tutor (model and empirical approach).

Name: Aloysius Lip

Date: 2nd September, 2026

Classification

This piece of research is primarily (please indicate as appropriate):

- X an empirical/econometric study
- □ the examination of a theoretical problem
- □ a critical analysis of a policy issue
- □ an analytical survey of empirical and/or theoretical literature

Dissertation Library

I give permission for a pdf electronic copy of this dissertation to be made available to future students by way of the Dissertation Library, should the Department of Economics choose to use it in this way.
